

IN THE CLAIMS

Please amend Claims 1, 4, and 5 as follows:

Amend claim 1 as follows:

Sub B/

1. (amended) A recording medium retaining [data for] menu control data for controlling [to implement input of an instruction in response to an operation on] a menu displayed on a screen, wherein[:] said [data for] menu control data has a data structure including:

menu display data which determines the configuration and operations displayed on said menu [for displaying said menu including at least one menu button for instructing to execute a predetermined function];

response picture data which contains pictures to be displayed when an operation is selected from said menu [for displaying a predetermined response picture in response to determination of an operation of said menu button];

response display data which provides instructions for displaying the response picture data [data for instructing to display said response picture using said response picture data when the operation of said menu button is determined on said menu displayed by using said menu display data]; and

operation instructions for performing the selected operation [data for instructing to execute the function assigned to said menu button] after the response picture is displayed. —

A

Amend claim 4 as follows:

A2

4. (amended) A recording medium according to claim 1, wherein said response display data [for instructing to display] includes data [for] specifying the [function] operation

assigned to said menu button and said operation instructions [data for instructing to execute
instructs to] execute the [function] specified operation [based on said data for specifying].—

A² [Amend claim 5 as follows:]

←5. (amended) A recording medium according to claim 1, wherein said menu display
data includes data for varying the display [patterns] of said menu button depending on whether
[when] said menu button is not selected, or said menu button is provisionally selected, or [and
the operation of] said menu button is selected [determined].—
